

I am Mažena Palevič, 19 years old student of finance from Vilniaus Kolegija/ University of Applied Sciences. I born in 1995 year at 8th of March in Vilnius, Lithuania.

I am interested in literature, travelling, art, music, films, culture and little bit of history. I am open-minded and I am always seeking for new experience and new knowledge. I like to lean foreign languages, for now I can speak fluently in English, Lithuanian, Polish and Russian and I am planning to learn German.

If it comes to my free time, I like to spend it with my friends, talking and partying with them. Also I like to meet new people and exchange our social and cultural experience.

In few words, I am the person that is always using all opportunities, which life can give to me (or just trying to use them).
