

My name is Natalia Berezna. I am 19 years old. I'm currently studying the 3d year of Tourism and Recreation at the Economy University in Bydgoszcz in Poland. Faculty of Tourism and Recreation with specialization in Management in Tourism, Logistics and Transport in Tourism. Tourism is a discipline, which requires interpersonal abilities and skills for working with people.

I had finished Medical-biology lyceum. After finishing I had a choice, to stay and study in Ukraine or leave my family and friends and go to Poland. I chose the second option. Now I have been living in Bydgoszcz for almost 3 years.

I speak English, Polish and Russian. In my opinion today the knowledge of tree languages is not enough.

I am open to try new things and not afraid of living a whole new environment.
