I think that the life is full of troubles, but when you worry you make it double.

My interests:

Business economics, entrepreneurship, project management, leadership, theory of economics.

My motto is - don't complain, don't gripe, don't worry and just be happy.

Like everybody, I like watching films, listening to music, singing and gardening. I also like to travel, but I am only a guest abroad - there is no place like home.

**For me Lithuania, especially Vilnius, is the best place to live.**
