

## **THOMAS VERHUYCK**

Belgium, Antwerp, [thomas.verhuyck@artesis.be](mailto:thomas.verhuyck@artesis.be)

I have the pleasure of being an entrepreneur. During my studies as an interpreter I started my first company specialised in translations (mostly movie subtitles and manuals) and language training for companies, and have had several companies since then.

During the course of my career, E-learning and E-testing were added. Most of my companies have always had a strong focus on IT or new technologies, including GPS Tracking & Tracing Systems.

Apart from that, I have been teaching all my life in the private sector, on various subjects such as Presentation Techniques, Sales, Financial Services, Demonstration Techniques, Negotiation Skills, Technical Writing, Business Plan Writing, Logistics, Marketing and the Psychological aspects of Testing and Assessments, and many other business-related topics.

I have joined the 'academic world' in 2009, mostly teaching Business Communication, Business Correspondence and Grammar.

Today I am happy that I combine these academic teaching assignments with my main company, a small company active in the field of testing for recruitment purposes, where we test the language skills, IT-skills and psychological profiles of candidates who are looking for a job. My company is active in 9 countries in Europe (BE, NL, FR, ES, IT, LU, DE, AU, CH).

I get my greatest pleasure and satisfaction from teaching and sharing knowledge 😊

Interests: life, people, teaching, tennis, badminton, volleyball, basketball, pingpong, squash, movies, gardening, and so much more
